SUMMARY

Creative and detailed-oriented junior developer with a background in commerce and hands-on experience in community-focused projects. Skilled in JavaScript, HTML, CSS, React, and Jest, with practical experience building responsive, user-centered applications and developing interactive components through LaunchCode. Currently learning Java to expand into backend development. Known for strong problem-solving and communication skills, I'm seeking a junior software developer role where I can contribute my skills, continue learning, and support a collaborative engineering team.

LANGUAGES | FRAMEWORKS | TOOLS

JavaScript, HTML, CSS | React, Jest | VS code, GitHub

EXPERIENCE

Memory Nest — LaunchCode Capstone Project

- A responsive web application designed to help users save, organize, and revisit personal memories through an intuitive interface.
- Developed dynamic React components to allow users to create, edit, and delete memory entries, improving usability and interaction flow.
- Implemented state management using React hooks to ensure smooth updates, real-time rendering, and consistent user experience.
- Designed a clean, accessible UI using HTML, CSS, and responsive styling techniques to support seamless use across devices.
- Utilized Github for version control and VS code for development, ensuring organized collaboration and efficient debugging.

Volunteer Artist - YMCA Senior Citizen Program

- Donated original paintings for fundraising events supporting senior citizen programs.
- Collaborated with event organizers and adapted artwork to meet event needs.

Event Volunteer - Arthritis Foundation, Jingle Bell Run

- Assisted participants by taking post-race photos and event navigation.
- Supported event operations by coordinating with volunteers and responding to participant needs and problem-solving.

EDUCATION

LaunchCode, Web Development Program,
(Course Focus: JavaScript, HTML, CSS, React)
